

Dear New Patient,

Thank you for your interest in Osteopathy. You have just taken an important step towards optimizing your body and overall health. It is essential during the treatment process that you remember to be patient with your body, as it may take several appointments to notice significant improvements within the body.

Please fill out these new patient forms and bring them to your first visit. These forms include the systems review, and a consent form. Please note that the intake form asks for your email address. With your consent, this will be used only for the purposes of electronic appointment reminders as well as periodic patient emails regarding relevant health and office information. The information you share on the intake and during all appointments will be kept confidential and will not be shared with anyone else, unless your written consent is given to do so.

The first visit will be approximately 60 minutes in length where we will discuss what injury or ailment you are seeking treatment for. The appointment will also involve taking a detailed health history including reviewing past injuries that can often play a large role in present issues you may be experiencing. Please wear loose fitting comfortable clothing to the appointment and be prepared that you may receive hands on treatment within your first visit. Along with hands on treatment plans our Osteopath team also uses modalities such as: Laser, Deep Oscillation, FSM and Vibrocussor to enhance your healing process. You will leave your first appointment with a clear treatment plan that includes detailed follow up instructions. Subsequent follow up visits are typically weekly or biweekly after the initial visit, lasting approximately 4-6 weeks. The optimal treatment plan will differ with every patient and condition being treated; your specific treatment plan will be discussed with you at your visit.

Please note that payment is due at the end of your visit. For your convenience we accept Visa, Mastercard, Debit, cash and cheque. If you are unable to make a scheduled appointment, please give at least 24 hrs notice, so that time can be made available to another patient. If less than 24hrs notice is given, you will be charged the full appointment fee for the scheduled visit.

Maple Shores Health Centre is located at the northwest corner of Goderich Street (Hwy 21) and Mill Street. Free street parking is available on all of the downtown streets. There is also a free public parking lot off of Elgin Street (one street north of Mill Street), behind the Port Elgin Library, that is a short walk to the clinic.

If at any time you have questions or concerns about your treatment, please feel free to voice them during your visits, or contact the office at (519) 832-4500. I look forward to working together with you to help you enjoy long lasting health improvements.

Yours in health,

Danielle Henry, DOMP  
Kinesiologist and Osteopath

**INFORMED CONSENT**

I would like to take this opportunity to welcome you to Maple Shores Health Centre. Danielle Henry utilizes the principles and practices of Osteopathy (D.O.M.P.), as well as other supportive therapies to assist the body's own ability to heal and to improve the quality of life and health through natural means. A number of different approaches may be used addressing different areas of the body; Muscle energy technique(s), visceral manipulation, craniosacral, lymphatic system, soft tissue treatment, and myofascial release. Other modalities may include low level laser, micro current and recommended home exercises.

**Statement of Acknowledgement**

Printed name \_\_\_\_\_

As a patient of this clinic, I understand that the form of medical care is based on D.O.M.P and other supportive principles and practices. I recognize that even the gentlest therapies have potential complications in conditions such as diabetes, heart, liver or kidney disease, during pregnancy and lactation. Therefore, it is very important that the information provided is complete and inclusive of all health concerns including risk of pregnancy and all medications being used simultaneously, including prescribed medications, over the counter drugs, herbs and nutritional supplements. The slight health risks of some D.O.M.P treatments include, but are not limited to: aggravation of pre-existing symptoms or conditions, allergic reaction to supplements or herbs and pain, headache, fainting, bruising or injury. As a patient of Danielle Henry, D.O.M.P, I am at liberty to seek or continue medical care from a medical doctor or other health care provider licensed to practice in Ontario. This consent form is intended to cover the entire course of treatment for my present condition. I understand that I am free to withdraw my consent and to discontinue participation in these procedures at any time. I understand that results are not guaranteed. I understand that treatment advice will not be given over the phone or via e-mail unless directly relating to specifics discussed during a clinic visit. I accept full responsibility for any fees incurred during care and treatment. I also understand that the Maple Shores Health Centre cancellation policy requires me to cancel and/or reschedule a booked appointment 24 hours prior to a given, scheduled appointment. Failure to do so will incur full fees for the missed appointment that must be paid prior to the next visit.

I have read and completed the intake form and stated all medical condition that applies to me to the best of my knowledge. I will notify the massage therapist of any changes in my health status to ensure my safety for receiving massage. I acknowledge that these massage treatments are not a substitute for medical examination or diagnosis, and that this is recommended that I see a Medical Doctor for that service.
